

in the know. in control. inlution.

inlution is the integrated technology solutions provider that offers Maine businesses and individuals state-of-the-art intrusion systems/burglar alarms, audio/video surveillance, access control and smart lighting and climate controls.

protect your investment

Our systems are the perfect combination of technology, security and peace of mind. We help you to secure your business against crime, and from loss, with the premier names in security and access control.

Features like remote access put you in the know, letting you monitor your systems and reset them whenever you want. Check your systems remotely with the instant access you're accustomed to with your favorite mobile device – and be in control, even when you're out of town.

high-definition security Aid in the detection of vandalism and theft, and assist in detection of fraudulent workers' compensation claims with our high-definition video surveillance. It also helps ensure that your employees are using equipment correctly.

high-quality surveillance Our technology optimizes your experience for your workers, your customers and your bottom line.

IN THE PAST 8 YEARS THERE
HAVE BEEN OVER 60,000
REPORTED BURGLARIES IN
THE STATE OF MAINE ALONE.

Bureau of Justice Statistics
